

GORSAND

A tenebrous type called Conant took the ball yellow and woke up to the dragoon but tenebrous that exists putting it underneath the dragoon, the dragoon went to by Conant and when it was crouched to avoid the blow, the dragoon gave him in the left thigh of the leg, Conant wanted to avoid all its blows but single it could avoid six, later put On guard bending to retain the impact but he was too strong and it could not avoid gave it to him in the stomach and Conant died, its Gorsand brother a type of eighteen years just fulfilled went to by the revenge of its older brother, Gorsand, tried to look for the yellow dragoon, found it just in his house that was in Glumver a wonderful city and was running with the arc and its sword in the hands treating to go in silence it sent an arrow to him but the dragoon tapeworm magical powers like all the dragoons and turned aside the arrow towards three meters to the right of him, Gorsand tried to attack to him with its sword but the dragoon nor noticed it, was clear that a dragoon needed but as would be able one in addition to be a rider were a great responsibility for him and as it were going to obtain a dragoon, the yellow dragoon left minutes, later Gorsand went to buy a PDA and by it walked was with a red and blue ball, it took it and it followed its way asking itself what was, at the aim arrived the store from electronics and watched everything what there was and it bought a PDA of luxury with several utilities when arrived at its house left the sphere in its small table, just when was going to sleep the sphere was opened and a strong whine sounded and Gorsand went to see what was saw what it had happened and saw a dragoon of average stature of white color, it caressed it with the right hand and it appeared to him a species of that in the same hand. While it slept dreamed about the dragoon whereupon name was going to him to put, at the following day watched at the dragoon many hours and in the end it put of Sand name thanks to him to that Gorsand was called thus days later went to look for a particular professor of magic in that same day had to let the university to be able to be a dragoon rider, his professor of magic gave a species him of briefcase in which infinite things could be put but before going away of the university it took leave of all his friends but one of its friends called Mild was dragoon rider and had not been said it to anybody but was said it to Gorsand so that it saw the mark him of the hand and said to him that if also went away it went.

Mild accompanied to him in its search of the yellow dragoon, his professor of magic also wanted to accompany to him and also he was its professor of magic was called Nars first who did went to go to the store of arms to buy but arms when they bought them Gorsand watched in its PDA the map of the town to locate to the yellow dragoon looked for by almost all the map until they saw the yellow dragoon Gorsand removed his sword and

pronounced: lased mord! and it gave a touch him with the hand to its sword around the sword there was a species of laser gave a blow him with all its forces to the yellow dragoon and it divided the neck to him and it said to them to Mild and Nars that went for Modenmer that already would go.

Gorsand felt proud when taking revenge itself but it had to continue the way, many days later Gorsand learned to speak with Sand its dragoon the bad thing is that single it was possible to be spoken with the mind but the good thing is that could speak to infinite kilometers, Gorsand felt proud of being able to speak with good Sand now had other Gorsand objectives it maintained ball to it of which its dragoon had been born and right when it was going it to throw to the sweepings it illuminated and Sand also was illuminated simultaneously that the ball and Sand felt an inexplicable force and unimaginable and Sand changed of color to a gilded color and very luminous that was overwhelming Mild it explained to him what was and mentally said to his dragona to him that came wine and said to him that his dragona was called Sanda and maintained its ball in the hands and raised it in stop and Sanda became from gilded color. Years later in the future had to fight and to kill to all the Surienses beings very feared never has known if they are animals or people which if who know it is that they want to kill all the riders of dragoon, Gorsand had its PDA in the hand and watched the map of the PDA to see where they would go to rest, next to Glumber there was a small called town Manblar that was to three kilometers to dragoon, Gorsand commented to them to Nars and Mild that went away to Manblar. When they arrived at Manblar, Gorsand vió a dog that it liked that it put to him of name Lanco Gorsand pronounced: cise doned! and Lanco felt like very glad, Gorsand mounted on Lanco, Lanco began to run with Gorsand raises, strange it it is that Gorsand could speak with Lanco with the mind although cost but that when it spoke with Sand, Gorsand said to him to Lanco that followed to him, Gorsand called to Sand and it sent an image to him of where it was Sand. Gorsand wine taught to Lanco and appeared it, a little while later they saw six Surienses coming near to them Gorsand removed his sword and its arc left the sword him to Mild so that it fought and the arc maintained he to it, said to him to Nars that could use the Gorsand magic sent an arrow more upper to him to the Serien and but thin the arrow gave him in the head, while Mild very hard gave a blow him by the back to he himself Suriense, Nars it grasped them with the magic and it pronounced with very slow voice: yor solen! and all the Surienses was immobilized. The fight has gone us well - Nars with victorious voice Gorsand said put the sword in its infinite briefcase, it suddenly removed a localizer from his briefcase and was put it to a Suriense - Gorsand said Therefore we will have them as always located good go together.

We needed food arms and if we did not obtain them could attack to us and we would be defenseless ah! and but the important thing we would die of hunger-said Mild-

- Nars answered That has said that we do not have food.

It is that it is truth we do not have food-Say Gorsand-

If we have food while we pruned to use the magic. - Nars- Responded again

It is truth-Say Mild-

Gorsand watched its PDA and tracking to the Surienses thanks to the finder that had put to him. - Gorsand said Is right behind us!

- Nars answered-Not, that is that the effect has not gone of the immobilization that had done to them.

- Gorsand said-Less bad. At that same moment an arrow left more or less to about twenty-five kilometers per hour and it gave him right to Nars in the arm.

- Nars pronounced: *Lasecv*! and immediately the arrow left to him the arm and it went away for which had been thrown it in the neck. Gorsand suddenly went to see that had been and was a Suriense. - Gorsand said in high voice the Surienses is average dragoons and average people Gorsand was brought closer to Nars. - Gorsand said-The Suriense is the one that I put the finder to him I am going away it to clear and I am going away it to put to another Suriense.

Gorsand ran towards a Suriense and carefully it put the finder to him this occurred the return to give him with its sword but before that-Gorsand it pronounced: *Lasecv*!

And it became to him the sword towards him and it avoided Gorsand one went away where they were Nars and Mild and put to Lanco in its briefcase. - Gorsand said mentalmente-Sand see here.

- Sand I answer: Voy!

It arrived Sand and vió as it were Nars. They had to take to Nars to a doctor of a called city Torl and it said to them that it was a contagious virus that when it took off to him beat to him to otro/a.

The virus stuck to him to Mild and it felt like seconds very badly later felt worse.

- Gorsand asked: These good?

- Mild fatal answer-Be, if I die quédate with Sanda. Just in four seconds later it died but Nars was towards and - Nars pronounced in stop: Lasttreer. And revivió thanks to Nars. Gorsand I remain without words and observed Nars kindly.

- Mild said in very high voice THANKS!

- Nars said: This is not nothing for me.

When it grew dark Gorsand was practicing the magic with

Nars. - Gorsand pronounced Ninte us. And Nars fell for

back of a very wild way, minutes later lodged in a a little small hotel of three stars but of the others it was in favor very well. Many days later Sand it had grown much and Gorsand already mounted on him and Sand took to him where it wanted.

- Gorsand said to him to Sand: I want to explore new cities today we will go to Calást a city that has many rivers, a city that must be very pretty, Vamos?

- Sand responded: I come I want to go.

- Mild asked to him Gorsand: Your is that your dragoon does not know to still speak without using the mind?

- Gorsand responded: No, and in addition nor it knew that that could be done.

- Mild said to him: I can teach to speak to him, your déjamelos and already sides as she learns.

- Gorsand answered: You I leave but without doubting it it.

Hours later Mild its class of dragoon education began, a day later already knew to speak perfectly.

- Mild said to him: I have taught to your dragoon to speak and to read.

- Gorsand to him was been thankful very to Mild-In serious you have taught to speak to him and to read, that well. Gorsand probo if it had taught to him or and if it had taught to him or in addition spoke with the same voice with which it spoke to him to him.

To the following Sand day one rose before all and very glad woke up to Gorsand. - Gorsand said to him: I do not have desire to raise to me, I am going away to sleep a little more.

Sand hoped to that all rose and when they rose. - Sand-This Said snowing, comes We go away already of the hotel? please.

- Gorsand answered: If it comes yes, that well that this snowing.

When they left the hotel they directly went to take the snow.

- Nars said: I a magical word to become the snow red foam.

- Astonished Gorsand said: In serious, hazlo comes to have as it is.

- Nars pronounced: Racht!

And the snow piece that it had in the hands turned intense a red lava species. - Gorsand pronounced-Rach. And the snow piece that had taken he turned a blue lava transparency.

- Gorsand asked: So that to me it has left to me blue?

- Nars answered to him: So that each magician makes the spells of a color if he wants or of another one. Gorsand included/understood it perfectly and, it threw the blue foam to him to Mild while Mild called to Sanda, Sanda came eight seconds after it called to him. - Sanda said Taken care of! While it threw a snow ball to him to Sand.

Sand threw another snow ball to him to Sandra, hours later decided to go away to a called city Sosfer that in the PDA of Gorsand appeared that it

was to about eighty kilometers of distance, Gorsand and Mild was in their dragoons however Nars was until there using the magic.

- Nars pronounced: Mord olo! It was transported immediately towards there when all arrived, met in Sosfer and it seemed to them a very aggressive city.

- Nars said: To me it seems to me a very aggressive city.

- Gorsand asked: So that?

- Nars answered to him: Because all the walls are painted with graffiti, the banks are stained of blood and the houses are destroyed and also painted with graffiti.

- Gorsand said: It is truth but you do not think about that thinks about that there is not no place to sleep insurances nor to sleep either.

- Mild say-Us we must return to Sosfer. When it was made at night became all with the spell from Nars, when they arrived at Sosfer was still snowing and they lodged again more in he himself hotel of three stars, Gorsand watched his PDA and at that same moment.

- Gorsand said: The Surienses is approaching us, and for that reason I have deduced that they are in this same hotel. A Suriense approached Gorsand with face to be gotten upset and it stuck coletazo to him with much force in the face, Gorsand faint right away but Mild was called to Sanda and it explained to him what it had passed Mild raised the ball in which had been born Sanda and Sanda became from gilded color, at that same moment discovered a dug cave already perfectly, - Gorsand suspecting say-By what we did not enter ourselves in this cave, nobody will be able here to attack to us. On the following day, nothing else to rise to Gorsand and the others they were with a Suriense that did not seem very original, Gorsand took first that it had by hand, first that it had by hand was the PDA, and it attacked to him with the right PDA in the belly, the PDA was destroyed being left to the keyboard and the screen single. - The Suriense said: You are not alarmed, single I think ayudaros, I am of the race of the Elfo of the South, although already that I look myself much like your rivals. One became an original Suriense suddenly and it threatened saying to them to them: Your years of life will become days! SUAGMATRA Gorsand no, you do not do it! Nars said, Gorsand threw the screen of the PDA and it broke it against the spell that made the Suriense, the spell went bouncing to both and the curse remained it both.

- The Suriense said: I will not die with you, if not who you will die simultaneously that I turning your damn years of life days of life, the spell began today at night, We will see ourselves in hell! All explained to him to all the happened one and cancelled their list of trips and began to follow the Surienses, that if, but this time, without PDA

- Gorsand said: I surrender, cannot continue, the spell has gone to me to me, him and also you, until the slept ones, I cannot follow thus, thinking about that someday the life will finish to me

- Nars without leaving finished the phrase said: Still there is a solution, and it is to obtain a spell that only has the blood of dragoon of the Surienses, the dragoons of the Surienses are mistreated by this Surienses so us it already can be easy so that they keep the blood in boats, these boats are enchanted, and it seems to me that the best way to obtain the blood is deshechizando the boats with our magical powers. And somebody me can explain the one of the damn days? - Gorsand Said

- Mild explained to him are not damn days, if damn nonyears, in which I will have to you to explain something of them: The damn years single them can curse the Surienses and another type of allies, if your we are going to suppose, you are going to live a year, this you reduces it to a day, but when these years become to several people to the same time are added to each other, and later they are reduced every year that you had left to live and they every year reduce that you have lived, quedándose to him possibly with a year or if you have much luck and you obtain the dragoon blood would remain in an infinite life, we in this case, can be died right now and if your you die you remained upon everything in the dragónico hell of the Surienses, the worse one of infier to us of which you can be.

- Gorsand said Then supposedly we have much or just a short time? - Mild answered: I do not know it, but what if one is that while we do not recover that, we are in life risk.

- Nars said: There is no haste, whenever we pruned to kill to us and to be in a better hell than the one of the Surienses.

- Gorsand said: You do not say more trivialities of those than nonbeams and that never you are going to do.

- Nars said: So that no? in addition they are not trivialities. Nars did not worry don't mention it, but Gorsand already wanted nothing else to be able to grow dark the dragoon blood, Nars did not realize risk that ran, and still it was pawned on killing itself and in which it was going to go to a better hell, account did not occur nothing else of which both to infier to us they were equal, that one era of Surienses and another one of Demons, the Surienses were very bad, but the Demons were equal.

I DAY:

The first day they were entered in the secret place of the Surienses, took hold seeing the boat of the blood that had it hidden in a closet with a drawer that was stained of a green fat finísima and sticky, Nars tried to take it first using the magic and after several attempts it could not take the boat, soon tried Gorsand and either it could not take it, after Gorsand tried Mild and to the end it obtained it, it went running leaving shot towards the cave the hotel of three stars, and when they returned, it was the Suriense of before waiting for them, did a threat to them, but Gorsand removed its sword and the Suriense could not to do nothing, when the Suriense went away, they tried to use the spell of the boat, that in this case, after several attempts did not work, Sand stuck a blow to him with its tail leaving the boat made trizas.

- Sand said to him: This is useless, and your PDA had informed to you already into the presence of Surienses and also it had informed to you into more spells.

- Gorsand suggested: So that we did not buy a new PDA? , he would be more useful to us

- Mild said: We must buy or a new PDA definitively, or if no, we will not be able to do nothing or to find the boats. In the end, they went to see if there were a store of computer science by that place, found one that was close, when they asked for a PDA, the salesman informed to them into several new features, and to the end they bought a laptop with Internet, and for its diversion with a direct access to FJDEXPRES. Later with portable they were put in stock-market the infinite one of Gorsand and they were stopped to eat in the hotel of the cave of three stars, when they finished they went to the search of more Surienses, found in Charjeir, a very desert city, a secret base of Surienses, tried to enter itself in her, when they put in the secret base of the Surienses, found a dragoon, Gorsand went running to attack with the sword to take to him the blood to him, the dragoon I for a moment throw a great blaze to Gorsand leaving it immovable, Gorsand berthed to him again with the sword, and it gave in the throat repeated times him until it gave a great blow him in the language, slowly the dragoon died, Gorsand took the blood that had left in the last attack, after the death of the dragoon, a band of Surienses persecuted them, one of the Surienses gave him with a wood that it had by hand, Nars while it was making the spell of the blood potion, he himself Suriense gave another blow him with he himself wood to Gorsand, the blood was spilled by the mouth of Gorsand and swallowed it, he himself Suriense did a spell that seemed to him of an expert Suriense to Gorsand, Gorsand fell to the ground, it seemed that there was dead, and when a wound was opened to

him in front of one became to him to close, all the blood that had fallen of the forehead disappeared

- Gorsand said: Now I believe that we are immortals, nobody can win to us. - Nars said to Mild: I believe that death forgot to him that you are right now immortal, not all of us, if you want that we continue living you will have to die, and we will have to drink of your blood. - Gorsand said: But I am immortal as I can be killed?

- Mild said: It will have to die your dragoon so that you die, but your dragoon also has become immortal, I believe that the only form is that you drink of your own blood.

- Nars said: But also we still can return us immortals, or by less not going to hell, eating a piece of dragoon meat, the bad thing is that the dragoon must be alive, will not mention it serve the meat to us as this dragoon.

- Sanda said I can take to a place where you will be able to take all the meat of dragoon which you want, and in addition free, single we must be careful.

II DAY:

To the following day, all awoke to the same time, Sanda wanted to take to them already to the place of the dragoon meat, Gorsand took to Sand to follow Sanda with their dragoon, wanted to go out all to the same time not to lose itself. - Gorsand said: We will go when it counts up to three, one, two, and... three! Dragons left both taking off claws enormous and sharp that they had, they glided of form vertiginous in that it was pleasant to fly over the trees, was splendid, suddenly birds left band that flew next to them, birds were being more and more back, after to cross all trees visible, came band from species of dragons who seemed to be of a tie band with the Surienses, lowered all dragons simultaneously, and when it seemed that there were no trees, they had to cross a whole forest, were avoiding the trees of a very dangerous form, went first for the left, soon for the right and later, blow, soon for the right and an ascent in which they fought against the force of the gravity, arrived upper from normal the dragoon of Gorsand, that is to say, Sand, remained flying and it was lost in the forest, the others did not know that Gorsand was behind and they left wire drawing it in the ground next to Sand. Sanda arrived at the mysterious place.

Nars, nothing else to arrive, realized of which neither Gorsand nor Sand were there. Nars was not wanted to return back or and followed with the persistence to obtain the meat before everything, refused to return, since what had happened to them he was or enough serious.

- Nars asked: Where noses we will find that meat here?

- Sanda responded: Still we have not arrived at the indicated place, espérate a little while and you will see what it happens, here I have friends who could help me, and who also could help you. An enormous door was opened from the site in that they were, illuminated a key that seemed that it took a letter tied with a beautiful cord done with a leaf, Sanda took the key and it left it in the hands of Nars, that then was hallucinated of which it had happened.

- Nars asked: This key so that it serves?

- Sanda said: I do not know it, but I believe that it will serve us to go to mazmorra in which they are the meats. Both they were entered in mazmorra first, which mazmorra with very little light was one, in single which a door with a groove for a key was seen, ran both until the door of

the key and put the key in the groove, they opened the door, and when they tried to remove the key, the key remained fitted in the groove, continued walking in one mazmorra that was too much illuminated one, this time did not see anything, entered and Nars took a piece of which it seemed human.

- Nars said I believe that already I have found the Sanda meat.

- Sanda said Salgamos already, express! Both they left while they looked for the friends of Sanda, in the end did not find nothing else that the piece that seemed human meat, left the two mazmorras that was together, when leaving did not see anything, single saw a shining light that it blinked each two by three, after a minute, already could see a little the light of the sun, Nars watched the hands.

- Nars strong shout: But! How? Sanda was very scared then, since the one that took in the hands was a piece of an eye mixed with a species of moss that were quite sticky, realized that in the letter which put was that they did not take it, but already was too much behind schedule, saw in the ground a camping class in which they lodged to sleep, because it was at night and there was all an animal family vagando by that so dangerous place that almost it was beaten they.

III DAY:

At the moment that rose Gorsand and Sand, Nars and Sanda were in he himself place, but account, Nars did not occur and Sanda, still slept, while Gorsand and Sand were wide-awake, they went to together the the two place of mazmorras without knowing exactly what was.

- Gorsand asked Perhaps is the this place del that was speaking Sanda to us?

- Sand answered: I believe that already they will have passed by that place, although could be this. Sanda floor a stone that had a tablet form in which it put the following thing: If the dragoon meat you want to find, you read this, you will not have to erase it.

- Sand said: It continues reading. Gorsand continued reading without saying nor a word, put:

$\alpha=A$ $\beta=B$ $\epsilon\epsilon\epsilon\chi=C$ $\epsilon\epsilon\epsilon\delta=D$ $\epsilon\epsilon\epsilon\epsilon=E$
 $\phi=F$ $\epsilon\epsilon\epsilon\gamma=G$ $\epsilon\epsilon\epsilon\eta=H$ $\epsilon\epsilon\epsilon\theta=I$ $\epsilon\epsilon\epsilon\phi=J$ $\epsilon\epsilon\epsilon\kappa=K$ $\epsilon\epsilon\epsilon\lambda=L$ $\epsilon\epsilon\epsilon\iota=M$ $\epsilon\epsilon\epsilon\nu=N$ $\epsilon\epsilon\epsilon\omega=$
 N $\epsilon\epsilon\epsilon\omicron=Or$ $\epsilon\epsilon\epsilon\tau=P$ $\epsilon\epsilon\epsilon\theta=$
 $\rho=R$ $\epsilon\epsilon\epsilon\sigma=S$ $\epsilon\epsilon\epsilon\tau=T$ $\epsilon\epsilon\epsilon\upsilon=U$ $\epsilon\epsilon\epsilon\omega=V$ $\epsilon\epsilon\epsilon\omega=W$ $\epsilon\epsilon\epsilon\xi=X$ $\epsilon\epsilon\epsilon\psi=And$ $\epsilon\epsilon\epsilon\xi=Z.$

- Gorsand said: It seems a language of an African species of Suerienses of Mino old Taurus, I will look for in the computer. Gorsand after looking for in its computer the information, found that they were very greedy and that they did not share anything to any risk, Mino Taurus were very wild, for that reason they wrote a language of signs with the plants, scrubs, until food that found.

- Sand said: Sight this, that still is more, continues reading Gorsand. In the following writing it put the following thing:

τηισ ισ στονεσ ιν ωηιχη μψ βοδψ ισ βυριεδ, τηε ονε τηατ τηισ ρεαδινη τηισ, σε ρα τηε χηοσεν ονε.

The text was not seen so clearly there, Gorsand took its portable one, and done a photography to him to the text of the language of Mino Taurus, it was crossing everything a forest, until it gave with Nars and Sanda, Nars and Sanda still slept happy surrounded in their dreams whereas Gorsand and Sand thought that they were deads, when they rose already was in the evening and until them same they recognized that they had slept much, Gorsand said what it happened to him and then Nars realized of which was happening, all to him took the dragoons and they went away, Mild was not there, but that he knew where they were the others, since Mild had an extraordinary power for everything what was until in the other end of the world, the others were not already nothing worried except Nars, although Mild is not included in this group, also was worried, after several greetings, the day went, and Gorsand did not realize of which it was the only immortal.

- Nars said: Since we are in this place, we will pass through the two mazmorras, single that this time, we will have to do it better.

- Gorsand said: I have a photo in the portable one, I would see it So that not to see he has it something of bad?

All saw the photo together, and they paid attention until to the last detail.

- Gorsand said: Esperad! , I finish giving account of a thing, you watch underneath the photo, if you want the increase more. Underneath photo a text was seen him, put:

ιφ της μεατ θυερεις ρεαλλψ, ψου τιγητεν τηισ ιτ στονεσ.

All simultaneously pushed the tablet, the tablet moved downwards, found the meat following all rectum, Sanda and Nars ate a piece, and the other reserved it to Mild.

- Sand said: You remember that you are not inmortales, single you will go nothing else to the sky. At that same moment Mild, Mild came took a meat piece and also it ate, while it said repeated times that were riquísimo.

- Sanda said: It turns out revolting to see as the humans to a dragoon eat.

- Gorsand said: Now we must find the form that you do not die, is already growing dark, I believe that I will take you to the place that the portable one says to me.

IV DAY:

Day storm appeared with incredible of rays, that surrounded more and more to a rain that sparked, fell a right ray upon the tablet which they had touched the previous day, later fell a right ray upon Gorsand that did terrible a wounded one to him that it bled until down, the blood dripped upon the plants and scrubs which there were there outside, Gorsand was not for mounting to dragoon nor to make magic, was wounded, strengthless, and with tremendous desire to fall to the ground, until it fell, he was in a faint and it could die if the intensity of another ray fell in him, another ray fell suddenly upon Gorsand doing of him a Gorsand died with tremendous desire to die, Nars tried to help to him, Mild also, until it rose, seated in a tree, and died, with its soul caught in the tablet, all cried less Nars, as always for the whole had solution.

- Nars said: I do not know because you cry if still we can join its soul with its body and revivir it.

- Mild said: You believe in that, you seem to me a magic apprentice. All were scared, could not cry more, had the full head of things of Gorsand, Gorsand had died but it had died by the Surienses that had sent the ray to him, they realized when they saw a pair of Surienses doing a spell, they were those that killed to Gorsand without compassion.

- Nars said: They are going it to pay right now, clear that they are going it to pay. Nars was sent to the neck of a Suriense and began to attack to him with the sword until killing it, later was sent to the neck of the other Suriense and the Suriense resisted using spells, but no matter how much Nars resisted killed it, in the end the result was of Nars two, Surienses zero, the others were observing Nars, after which Nars did, they came a whole band from Surienses to kill them, but they resisted and were killing of four in four, attacked and killed, attacked and killed, until they were with the Suriense head, a Suriense of two kilometers of stop, were enormous and weighed tons, but they they resisted, as it did not serve to them don't mention it because with walking, it caused an enormous earthquake, Mild could not more but with its magic it did a little to him of damage in the leg, repeated that spell several times until the Suriense head took a tree, was crouched, and it gave the blow more hard him than it had received in its life, the Suriense resisted much, and Nars could not win to him, but they joined the spells of Mild, Nars and the dragoons of a brutal form, in which they left losing they because they fell backwards, could not already resist more and the force won to them, until the dragoons tied and they combined creating an enormous dragoon that seemed that it could overcome to the Suriense head, Nars mounted in the combined dragoon, the combined dragoon automatically sent a ball who contained a mixture of fire and ray to the Suriense head, the Suriense head resisted with a

tremendous force until falling to the ground, fell in a dung who was accumulated in mountain form, the dung became a species of dust that left an aroma not very pleasant, both kilometers that mediates the Suriense were compensated in the weight, did not weigh as much as they hoped, although the fall left to the Suriense head unconscious, at the moment that disappeared aroma saw in two different sides a very thick smoke that it left he himself site, Nars and Mild ran towards the smoke and saw a jar in which it was written γορσανδ. They deciphered the written message, and put Gorsand, lodged to sleep next to the jar that put Gorsand, the jar I keep Nars taking it with the arm, ready to give puñetazo to first that she woke up to him.

V DAY:

When all rose, Nars was direct to open the jar in which it put Gorsand, when it opened it, began to leave flames and objects of ashes that seemed to be those of Gorsand, Nars tried to cover the jar while the objects brutally struck to him in the legs.

- Nars said: Now what I make Mild? , I am trying to cover the jar and the jar tends not to cover itself. The jar flames were come off that surrounded to Nars, a flame always followed Nars, the flame gave him more and more and it broke the clothes to him of a brutal form, the same flame gave several blows him of high degree in the face, Nars shouted very hard of a form, Mild tried to help to him, to Nars became deformed the face to him.

- Mild shout: Nars, Nars, Nars! Nars did not know what it was happening to him, but the face hurt much to him, Mild took to the flight a mask that left the jar, took to writing the name of Nars, Mild passed the mask to him to Nars, Nars took it to the flight , Nars did not know what happened, Mild explained it, Nars put the mask while it was gotten up to put the cover to him to the jar, in the end obtained it, but the consequences were enough serious, the mask that had put Nars was stuck to its face by a sticky substance that adjusted perfectly.

- Mild said to Nars: Sabrías to explain to me because the mask takes your enrolled name? And how is that you did not cry when the face was burned to you?

- Nars responded: I do not know how it is that the face did not hurt anything to me when me I put it, and does not cry because it did not feel the face then. A band of Surienses came near to them while another aerial band of Surienses attacked to them from the sky, Nars opened the jar of Gorsand and left ashes flying towards the Surienses, all the Surienses left taken off towards a black hole that is not known to where it took to them, the Surienses aerial resisted and was able not to arrive until that hole, Mild left dismissed towards the hole, Nars took hold to him of the hand to Mild, and fell both simultaneously in the hole, Nars and Mild tried to leave the hole, but the jar of Gorsand prevented it to both, left a pile dust and smoke which they closed his happens in order to leave the hole, they tried to leave but they could not, since the hole was every time and more deep small, the smoke covered the eyes to them, and the dust did not let to them breathe of a form that outside correct, every time was darker, and they did not find the form to leave, tried to take a cord that was hooked in a stone piece with tip form, and right at the moment that was going to leave, it fell to them the cord of the hands, Nars shouted very hard, Mild also, both took the jar, but the jar slipped between hand and hand, could not already take it, fell just in the closing of the hole, suddenly what it seemed hole became a cave, a cave not very dangerous, Nars and Mild was worried about the jar of

Gorsand, Nars rose above of Mild, and Nars took the jar, the jar came unhooked of the closing of the cave, and the cave was closed completely, the jar fell in a hollow done to its measurement that put **,δνασρογ** the dragoons followed combined, but they could not help them because they did not fit nothing else that of knees and if they tried to fly not they were going it to obtain so that the so smooth wings that they had, at a moment would be broken later, left the jar of Gorsand a hologram of Suriense, the hologram was the one of the Suriense that killed to Gorsand with another Suriense smaller than it was to its side, Nars was sent to the hologram and it attacked to him with its sword, the greatest Suriense it began to speak, it said: In this jar you will find the badness, also the truth, the resurrection, and to your friend thief, your friend did not die, I left it in freedom, if to him you want to find will be in the end.

I SAW DAY:

To the following morning, Nars ran to see the jar of Gorsand, Nars thought about that they said Surienses both, tried to take the jar, began to leave zeros and as if they were data, Mild awoke and it rose to see what it happened, Mild thought that they could see those data through computer of Gorsand, Mild took the computer of Gorsand, suddenly, a mountain of numbers ran until the computer of Gorsand, the computer of Gorsand began to see a video that took much in loading itself, later opened one second window in the computer of Gorsand in which it put the following thing: Accessing to Internet, found radio networks... NONE.

- Nars said: The computer of Gorsand does not have portable Internet, at least still, we will not be able to continue seeing the video, or rather, to see the video without Internet.

- Mild said: We are locked up in a cave, how we will be able to buy the Internet? - Perhaps Nars said we found the correct spell in the computer, I already tried to use my spells, and I could not obtain it. Nars and Mild began to look for in the memory of the computer, by chance, gave with a radio network that apparently to be, left the jar, opened a window of Internet that was the one of the video, in the computer put: Loading in búfer... It finally left already the video, that as soon as it was seen, was seen a Suriense next to Gorsand, fighting in a different planet, the Suriense took a sword with two ends while it maintained a branch with the other arm. The Suriense was seen very tired and by far sweat, Gorsand struck a good blow to him in the back with its sword, the Suriense said: You do not kill to me, you do not kill, I do not know to me where she is the head. Nars threw a glance to the jar and saw the Suriense of the video taking hold to him a leg somebody, Nars threw to run towards the jar, was Gorsand there inside taking hold to the Suriense. Mild followed Nars and took of the hand to Gorsand, Gorsand tried to raise, the Suriense, removed its double sword and it threw to him again to the jar to Gorsand, Nars tried to put in the jar while Mild distracted the Suriense to him, the distraction did not serve to them as much and the Suriense threw to Mild to the ground, took to Nars of the arm and it threw it to the ground next to Mild.

- The Suriense said: He is. .es, Nars.

- Nars said: Well, now already we know to learn the names, that joy. -

The Suriense said: I take to years intentándote to find, it looks for by all sites, and now finally I find you, Nars, already you can find your Gorsand friend, I will help in which you want you, you still take to putting our tradition.

- Nars said: You speak of this mask, this mask me in... good if, I take it by the tradition. After a few hours, Nars and the Suriense made an agreement→” If the Suriense plus the band of the mask accompanied to

them, it would help them to win to the other Surienses and to recover to Gorsand”.

- The Suriense said: You do not worry about anything, you will be pleased. Either they were a group Nars and Mild, the more the Surienses, began to leave the cave being tried to take the jar, that by the way, obtained it, later, tried to him to attack a Surienses, but the Surienses of this band protected them of the others, after several minutes, Nars and Mild or were tired, but the SuriensesB (B of this band), lodged to them in a secret site in which single they had acceded until the Surienses moment, in the place in which they were, could as much open the jar, as to have to its availability an arc of great category, the one of the arc left it, but that they took several potions and devices, also took knapsacks, drank and ate to their pleasure and taste, soon if discovered some Suriense which was happening, better not to speak of it, would happen what less they were expected.

VII DAY:

To the following day, a little rose to Mild before Nars, Mild was put to investigate the situation in which they were, also investigated that day they would take to Gorsand the SuriensesB, calculating the day, saw the jar of Gorsand moving single in front of a curtain, a little approached and left things behind the jar as if it was throwing them a person, Mild approached a millimeter more the jar and a SurienseB left suddenly.

- The Suriense said: Innocent! , I have scared to you?

- Mild said: No, that goes, single the jar of Gorsand by behind a curtain was seen a Suriense shaking, Who sends you that you do that?

- The Suriense said: Nobody, single is that today it is the day of the innocents, and here the Surienses we spent many inocentadas that seem most realistic possible.

- Mild said: Ah! So then, I can leave a house of which there are here and to burn it while I say, fire, fire.

- The Suriense said: Power you can, but that no longer would be inocentada, mainly, because it would be a truth, not a joke, you do not say savageries that never you are going to do.

- Mild said: That already me a friend said to it to me, you I say I to it. Nars rose at that moment with all the full whole water clothes.

- Mild said: Innocent!

- Nars said: That graceful no, now it is that when the face is burned to you, you they soak it of water. Nars threw to run behind Mild, when Mild got tired, were surrounded by Surienses, left a person behind with a very familiar face.

- Mild said: Is Gorsand!

- Nars said: You do not say more trivialities already is worth? , Gorsand is not going to return more never, so you do not have him already, the Surienses will go in its search, but they found it dead.

A painted Suriense left red completely, the boy with familiar face took off a mask that took as of celebration and a SurienseB were seen the light.

- The Suriense said: Innocent! , as they prick these children.

- Mild said: With almost twenty years you create that we are children?

- The Suriense interrupted: Pardon, you pardon, if wants, *I bring to Don Mayor a water glass to him.*

- Mild said: It would not come to me bad for the throat. The Surienses brought a water glass to him of a warehouse, when they gave the water glass to him to Mild, Mild responded throwing it to it to the Suriense.

- The Suriense said: As palabrota in your language is said greater, it is that that is what would say to you, I do not know to say palabrotas in your language, in the single course taught the vocabulary to me of all the countries, but that, no, I asked it my professor Suriense, and answered to

me saying to me that if wanted to learn palabrotas, that it aimed to me at palabroteras classes of palabrotería.

- Thousands said: Really.

- The Suriense said: No They were almost all the day well passing it to it, until a mailman came from field that was running until there.

- The mailman said: I have a very important letter for you, Mild.

- Mild said: He is something good or bad.

- The mailman said: Ábrela, your father the teacher of dragoons said such day to me that you gave it when... The mailman lay down to cry and he went away.

- Mild said: OH IS NOT TERRIBLE! The others threw a glance to him to the letter and put:

Dear son, this letter I ordered that you they sent it when died to me, I want decirte, that your always you have been made respect, the one of your Gorsand friend, I will see it there, in the sky, I know everything what there is past, and all this I know it, by a spy that I sent that it spied on another spy who was espiándooos, I say son to you that if you find this spy, to whom my spy spied, you kill it, was a sentence for all we, tried to commit suicide with so of not paying taxes, always it wanted everything of luxury, and it was not possible to be allowed, was seen in a tremendous depression, until it became spy, only has an order to kill all you, GOOD BYE.

VIII DAY:

When rising the following day, Nars ordered to the SuriensesB that changed the course, and that went directly to by the father of Mild, Mild rose crying and desperate, like without knowing what to make, since their better friend and his father, was dead, Nars it saw one between branches of a tree a disguise, like of fervor and a plastic that would not last much.

- Nars: You do not worry Mild, we will go to by your father, we will arrive soon, it thinks that a person cannot be revivir, or perhaps, if. To Nars an idea to the head came to him suddenly.

- Mild: Hay some form! And if there is some, not reviviste to Gorsand, so that you did not want.

- Nars: If there is a form, and I believe that your already you know it, and if you would have to know , if we arrived soon, we will be able very well to revivir it, to Gorsand, we will not be able to never revivir it, the inmortales that die, they cannot revivir with a spell, and your you would have to know, that to Gorsand, the only way that there is to revivir it he is illegal, perhaps, when revivamos to your father, if it is that we finished speaking soon... A voice of a Suriense interrupted to them and it invited to them to enter a something very fast. The dragoons, mounted in their dragoons, and were fastest possible to by the father of Mild, the dragoon of Mild, took to two people, when the SuriensesB indicated the last step to them, indicated bad the way to them, took to a desert in that there were several species of dragoons, was gorgeous to contemplate as were born a dragoon behind another one. Nars opened the jar of Gorsand already, because it knew that the way had indicated them badly, but did not know so that a bad way had indicated them, if they took to one of his. At a moment it sounded an object that seemed a moving body, or an electronic object, the Suriense that took made a gesture of delay. Mild suspected that the jar nothing else it did not leave that sand and more sand.

- Mild said: Nars, you are listening the Suriense, apparently to be it is not of ours, it seems that it has position the free hands. On the telephone oía: *You are not a SurienseB you you are Normal Suriense. If that I am it, and it I can demonstrate. Your, that you can demonstrate it, your you are not a SurienseB, and the only thing that you can demonstrate, is...* The one that it was in favor of the other line, hung. In opening and closing of eyes, Nars no longer was there, and destroyed Mild, crying, and without knowing what did, ordered to Sanda that killed it, said to him that del was the spy that his father spoke, Sanda stuck coletazo to him, and Mild took it of the neck, at the moment who was going to him to stick puñetazo, a band of SuriensesB began to torture to him, Mild ordered to the Surienses, that let him kill it, but the SuriensesB did not do case to

him, Mild went with dragona, that is to say, with Sanda, they arrived at where he was the father of Mild, Nars it had already arrived from before.

- Nars said: j Lasttreer, Lasttreer! , LASTTREER! The father of Mild already revivía, and as always, in a spell, were indirect effect.

- The teacher of the dragoons said: THANKS! The indirect effect of the spells like this are, that when you finish it doing, you say THANKS, obligatorily.

- Nars said: How know you that?

- The teacher of the dragoons said: I am masterful, and the father of Mild, I teach to Mild, and Mild taught me. Mild was direct to embrace its father, it was or at night, and Mild had desire or to lie down, suddenly, the jar of Gorsand left its sand face.

- Gorsand said: I have just a short time, so I will be brief, I am in a fantastic place by the day, and evildoer, if you want to me to find, at night nonlame the car, is what he said the species to me of Suriense that was there. The jar it left a smoke that became a Suriense, Gorsand said that that Suriense mistreated to him, cut the conversation.

IX DAY:

- Mild said: Gorsand, no, nooo! Mild still had not risen and was sleeping, its words killed the ear of Nars, Nars thought, that Mild, was being a magician sleepy.
- Nars says: Wide-awake already! One, two, and... Three! Mild did not awake, the sleepy that it was was tremendous, Nars removed the jar from Gorsand, and it was prepared for the worse thing, at a moment, left a bell and a small wheel, that seemed to be very old, Nars took the bell, and it shook it, a tremendous very annoying noise, left the bell, suddenly, to Mild put a face to him the quite pale thing, like sticking to Nars a very good scare to him.
- Nars said: Mild, wakes up! Mild awoke, and it explained to Nars the sleepy to him that it had been, apparently to be, it was not a dream, it was a nightmare.
- Mild said: I will explain the dream to you that I have had: It was one night, dark, Gorsand was there, took a wood with bat form, tried to give to him a person, who by my deduction, was the Suriense, if that, the one that tries to him to kill, gave him like about eighty blows, the Suriense did not die, the Suriense gave him by the back to Gorsand, in opening and to close of eyes, came a SurienseB that it meant something to him to the Suriense, the Suriense asked to him the SurienseB: When will arrive the day?
- Or I said to you, that within six or seven days, in this period, Gorsand no longer will be able to revivir, and it will not live in any world.
- Nars said: But, as they dare?
- Mild: But a dream is single.
- Nars: A magician dream, a magician dream, is not single a dream, a magician dream is a dream in which you see things which they have happened in the reality, your dream, or nightmare, insurance, or almost surely, that have happened in the reality, your dreams usually are not trivialities, mainly when you speak them in stop.
- Mild: I have spoken in stop?
- Nars: If, although it did not give shame you that the SuriensesB heard to you, yes, I am sincere, and I must say the truth to you, mainly if you are my friend.
- Mild: Whichever days do since the Suriense sent to us to the spell?
- Nars: Espérate to that it makes the calculations...! Nine, do nine!
- Mild: I either nor it decided to me, Nars, perhaps, the one of the six or seven days, means, after this day, and of which I have realized in this dream, it is of which the Surienses, and the SuriensesB, is equal.
- Nars: Is truth! , now, in which we must center these days to us is, that take to us to where this Gorsand, later, it will be called on to us to act, if the SuriensesB does not want to take to us until him, we will do we.

- Nars said: SurienseB! , could take to us directly to where is Gorsand?
- The SurienseB: To be able I can take, want to you, do not want to take to you, eh your, red one! , where is Gorsand?
- Red one said: It is necessary to happen through the JD desert, in you will be several ways, like five, will have to take the five, first will be the one of the fire, the second the one of the ice, third the one of the grass, the quarter the one of the wind, and fifth the one of Gorsand.
- Nars: You have listened to that? The five ways, the SuriensesB are equal that the others, we will have to go by our foot, if they do not want to take the SuriensesB to us, we must have our own methods.
- Mild: Single it appeared a SurienseB in my dream, can be that he is he himself, the others, do not have so that to be bad.
- Nars: Eh! SurienseB! as you do not want to take to us I go away I and my friend single! we did not need either your aid, to take badly to a person in a dragoon, that is not yours, or is difficult, but to thus do it, nor I tell you.
- A SurienseB: I if I can take to you, this SurienseB is the one that malasombra has more, besides to betray us to all, it left us in the misery, and after helping him again, it has betrayed to us.
- Nars: People like you do not see themselves every day.

X DAY:

All to the same time, the SuriensesB rose, took more in rising, Nars and Mild was together to by Gorsand, Nars opened the jar of Gorsand, again left the same face that was looked like the one of Gorsand, the face that was Gorsand.

- Gorsand said: Nars, Mild! , I remained locked up in a strange planet, apparently to be this planet is within stock-market infinite, thanks to this, I have been able to feed Lanco, and has grown already enough.

- Nars said: Anda, is truth, we forgot to feed the dog! , but Would not be dead? , if you did not feed nor.

- Gorsand: All these days, it is had been feeding single, which is to me to be strange, it is that even without seeing it these days it knew me.

- Mild: Sure if it is a dog of a magician, as it is not going to you to know.

- Gorsand: You do not approach here, Lanco can be that it does not know you, and you I assure it is a gigantic dog, and here there are several classes of Surienses.

- Mild: You do not worry, we will not approach there.

- Nars: We go already of way, if that we will approach. The transmission in the jar with a shout of Gorsand was cut.

- Nars: When we arrive at the JD desert?

- Mild: Supposedly, by the indications of our SurienseB, we will arrive today, very soon, with three dragoons, that are not going to arrive soon. One already saw the desert of JD, every time they approached more, they happened through a long simultaneously waved high turf and.

- Nars: We are already arriving at the JD desert, no?

- Mild: That fast, it is truth, it seems that already we are arriving.

- The SurienseB: If that we have arrived already, now already you will be able to go single, nothing else that you.

- Mild: I want that you accompany to us, since you have helped us as much, acompañanos until that we find to Gorsand, please. After several verifications the SurienseB decided to accompany them, and to help to him to find them to Gorsand. The SurienseB seemed arranged to fight, began to walk over the sand of the JD desert, arrived at one first part of the desert, that was enough length, when they were going to continue walking left a wave magical sands that took to them at the outset, after several attempts, was made at night, several times tried, and every time, eight meters went more ahead, the meters were multiplied, and arrived at the way of the fire, like or was at night, and there they were hot, they made a rest, they wanted to leave it or for the following day, Nars took a wood and it put it in the fire that was there, the fire did not graze to them, and was physically impossible that it could graze to them, Mild and Nars was investigating as they could happen on the inside of the fire without it affected to them. Mild

was put to sew a resistant suit and Nars was put to create with several materials one that was not warmed up, Mild took its suit and it proposed to him to Nars to combine it, when they combined the suits left one to them that had much hardness and that seemed to resist the fire. Nars took the wood that had put within , the wood had several flames by several sides, of a very loose shock that it ignited to the suit, the suit was broken.

- Mild: We must work more, if we followed thus, the suit will not resist much tomorrow, and in addition, we must make two.

- Nars: You do half of suit of mine and I will make half of suit of yours, is worth?

- Mild: Bond, we will do what you say, Nars.

They were both put to create the best suit than they could, Nars or went by more than half of the suit, but Mild went slowly the more, Mild was making the suit the best thing than it could, when they finished making the suit proved it, or were tired, the forces lay down and recovered. They remained sleeping, recovered a little, Nars snored much, and to Mild that bothered to him, but thus it even slept.

XI DAY:

To the following day, Nars one rose before Mild, Nars waited for Mild to that it rose, when Mild rose:

- Nars said: Mild, already you are prepared for enfrentarte to the fire?
- Mild: Come, if I am prepared, we go to it.
- Nars: And if we were expected a little more?
- Mild: You hazlo to your way, I will do mine, we went away, no? Then to it.
- Nars: Bond, I do not want fights, we go already!

Nars and Mild began to try execute cross-fire, Nars entered first, Nars did not feel anything the fire, the fire crossed the suit of Nars, when Mild entered, the fire did not cross the suit, but the suit was more resistant than the one of Nars.

- Mild said: This suit did not last much!
- Nars: To me me is clearing the fire, and I do not complain, although if we did not leave express that we will become ashes!
- Mild: You do not speak or you will consume all your forces!

Sudden movement, a man left the fire from within, and he removed to them until the other side.

- Mild said: Who is?
- Nars: How you want that it knows it?
- Mild: I do not know, but nothing is heard here.
- Nars: If that hears something, one hears a man.
- Mild: But how we have arrived until the exit?
- Nars: It seems to be that it has taken a spell to us that has done somebody.

The man of the spell, seemed to in the open have a piece of the face.

- Nars said: You do not see the face him? , it is the SurienseB.
- Mild: Is truth!
- Nars: Clear that it is truth.

The Suriense approached and made a fast glance to them for both sides.

- The SurienseB said: Where you had put?
- Nars: Is that you do not know the way?
- SurienseB: If me the way, but I did not obtain encontraros yesterday, seemed to see to me two suits.
- Mild said: There, we were there!
- Nars: If that you had to us to do, unless you saw us at night, truth?
- SurienseB: I saw the suits, and I already was myself, also is truth that was at night.
- Nars: It does not dress us because was dark, no?

- SurienseB: Exact!
- Mild: Now we must center to us, as always, in the following way, the one of the ice.
- Nars: As one assumes that we are going to happen through the ice without congealing to us?
- Mild: Ay Nars! , you are as always, in clouds.
- SurienseB: To the grain!
- Mild: Then with such suits, As if no?
- SurienseB: And I what?
- Nars: I will prepare one to you!

Nars remained to all the night preparing the suit for the SurienseB, mediates the body to him, is remedied it, and it became to measure, Mild was formulating a plan to escape of the monsters that were in the ice.

- Mild said: According to my plans, we will not take anything in arriving.
- Nars: That means that we will arrive in a moment.
- Mild: That ready! , finally you understand it.

The SurienseB was looking for some subject to change of conversation.

- SurienseB said: Nars, that you are making me the suit well, eh?
- Nars: If, it is truth, all this I know thanks to it to Mild, oooh that dream!

XII DAY:

This day, Mild raised before Nars, Mild finished suit that had begun Nars, when Nars rose and saw Mild that had finished the suit, thanked for it.

- Nars said: Good Mild work.

- Mild: It has been a detail.

The SurienseB rose and saw the suit that had done both.

- The SurienseB said: Gracias Nars, already is finished the suit?

- Nars: If, Mild has finished to it, to that it is well?

- SurienseB: I do not know what to say, is perfect.

- Mild: Now we are in which we are, is worth?

A silence was heard and, they said all less Mild simultaneously: is worth!

- Mild said: If you agree, we will happen that way and later to the grass, and when we cross the grass, preparaos for the worse thing.

They left all running towards the ice and they tried it to cross as if nothing, left an enormous monster, like of about eight meters, Nars crossed it sliding with the shoes and it fell.

- Nars said: You do not leave me here!

- Mild: You do not worry, we will not leave you!

Mild had it already all glided, Mild convinced to the SurienseB that it helped Nars, and all of the hands, Mild were taken that was first that was taken, I stick a pull, and returned all to be like before, that is to say, return to his position, already it was made at night, and every time became this rarer, appeared cypresses, saw first one, the other was seen later, and after cypresses and cypresses, a Full Moon became involved.

- Mild said: Agarraos all of my hand!

And to it seemed a sonante echo that said: No, no, no, no.

All were taken hold of the hand of Mild, and Mild noticed to them that they did not loosen of his hand happened what happened, Mild went in center taking hold the hands to Nars and the SurienseB to him.

- Nars said: A grass sees itself already, no?

- SurienseB: If, if that sees, can be that we are arriving at the following way, the one of the grass?

- Mild: If, it is very probable, too probable.

- Suriense: If master, the boys are arriving at the following way.

- Nars: Who has said that?

Nars, Mild, and the SurienseB watched for he himself site, and saw a Suriense spying to them.

- The SurienseB said: I do not put to you with my friends!

The SurienseB stuck great puñetazo to the Suriense.

- Nars said: Towards lack that?

- SurienseB: That you want that it says to you? Mmm, yes!

- Mild: Thanks.
- SurienseB: Don't mention it.
- Nars: Because don't mention it, you have seen puñetazo that you have beaten to him?
- Mild: There am it been thinking, and good... because we do not make a band?

All agreed, and followed an order to speak.

- Nars said: To me yes that I would like to make a band, but with the condition, of which we did not betray any.
- SurienseB: Whereupon we are ourselves of aid, good, yes!
- Mild: What names will have?
- Nars: Nars band.
- SurienseB: Suriens band.
- Mild: To me I would like: Mild band.
- Nars: We will combine all the names.
- Mild: Narmilsu, what seems to you?
- Nars: Another name.
- Mild: It was called: Narsumil. (N.S.M).

XIII DAY:

Nothing to rise Mild more, all rose, had to cross the grass, but the grass did not seem nothing threatening.

- Nars said: Vamos already to cross the grass!
- Mild: To it?

All simultaneously said: To it!

- Mild said: We will not take much, is threatening beings, nor nothing, nothing don't mention it.

- Nars: I will think what you say.
- SurienseB: Vamos N.S.M!

They began to cross the grass, at the moment, they did not find anything malignant, they did not reach nor half of the way.

- Mild said: Esperad! , it seems to me, that the more we walked towards ahead, the more we go for back, we will have to give the return and to return, is a spell that cannot be broken with another one.

I already notice as they were advancing, but the dragoons went too much tired.

- Nars said: So that we did not rest?
- Mild: We already spoke of that last night, nothing of rests.

When the dragoons got tired to take them, they had enough rest already because they lowered of the dragoons, and the dragoons let fly, and began to walk.

- Mild: We will never arrive at the way of the wind.
- Nars: For the way of the wind, still we have left.
- SurienseB: You do not notice something rare? , we do not have already any trap here more.
- Nars: I if I notice something rare, but it is not of this landscape, it is of which in the name of the band, we do not have including a Gorsand.
- Mild: Never we will arrive!

The N.S.M stopped and made an obligatory rest for the name change.

- Mild said: East name will be put to him: Narmilsursand, (N.S.M.G).
- Nars: Well, already he is, vámonos.
- SurienseB: Eh you watch! , in all this time, we have advanced without realizing.

- Nars: Toma!

- Mild: In the end, the rest which we have done, if that has served as to us, eh?

- SurienseB: If, peculiar and simultaneously strange.

The N.S.M.G nothing else already they had arrived at the way of the wind, when they surpassed that way , would not have left that to rescue to Gorsand.

- Mild said: We must prepare us for morning.
 - Nars: Vale! , I am safe, that tomorrow we will surpass that and already we will be able to rescue to Gorsand.
- All lay down before time to tomorrow rise more express, Mild and SurienseB, was prepared to face everything.

XIV DAY:

Nothing to rise, all more knew well clearly what they were going to do.

- Mild said: Fast Vamos to the way of the wind!

The N.S.M.G said: To it!

They began to run over the grass, the grass moved for the left and the right, but never towards ahead.

- Nars said: Mild, you have made the calculations of this way?

- Mild: No

- SurienseB: What concern the calculations?

- Nars: We mounted already in the dragoons?

- Mild: If, three, two one, already.

They mounted in the dragoons of a jump, was gorgeous to contemplate that landscape, in which one saw grass, grass, and more grass.

- SurienseB said: At this step, we will arrive very fast.

They crossed a line formed by pieces without grass, in opening and to close of eyes, a thunderclap that was seen fall of the sky, fell, just upon where it was located previously Nars and SurienseB, of bad luck, it was in favor Mild, Mild there received it doing a spell to him.

- Mild said: Nars, separates!

The ray was to him direct to Nars, Nars aloof it, and began to fall rays from the sky, piles of rays, joined several rays that formed the name of:

GORсанд.

- Nars said: Observad this!

All watched.

- Mild said: There is a ray with the name of Gorsand.

- SurienseB: It seems to me closely together that we are close.

- Nars: And you also watch this!

The rays of the name done to them in top.

- Mild said: I have everything prepared.

- Nars: That you are going to do?

- Mild: Aloof you rays.

- SurienseB: I will make spells to retain them a little!

- Mild pronounced: Mild one!

All the rays disappeared continuously.

- SurienseB said: That has been that?

- Mild: If you pronounce your name in form of spell plus a number absolutely you will do what you want , what you want, single, that not always it leaves, and acquittal many forces, if you go mounted to backs of a dragoon the forces dispersed by you and the dragoon, the spell will be equal of great, but at the time of consuming forces, to you it will consume less, but also it will consume the dragoon to him.

- Nars: Now we arrived.
- SurienseB: Finally!
- Mild: Because we did not rest?
- Nars: Come, to sleep.

SurienseB and Nars, stretched simultaneously.

XV DAY:

To the following day they were in another place, a different place, a full precious world of dragoons, by deduction of Mild, that occurred to account of was there where they would find to Gorsand.

- Nars said: Sight, is a hole there very deep in which the jar of Gorsand fits.

- Mild: Finally your head, serves to us as some utility.

- SurienseB: You hope, can be that that hole takes to the jar to the Surienses.

- Mild: So that they want the Surienses a jar?

- Nars: Is truth!

- SurienseB: You do not shout to me, we will put it with care, is worth?

The N.S.M.G said: Vale!

They began to put the jar of Gorsand in the hole, one fell in a site that it did not cushion and it was broken.

- Mild said: What we have done?

Humareda left one the jar that already was had broken, humareda became a face, the face said:

- Mild said: There this Gorsand!

- Expensive: You do not speak, we will have to fight, and if him sights to Gorsand eight seconds followed, killed to you.

- Nars: Ah! , that if you do not want that they kill to you, is not necessary to watch it.

- Expensive: Gorsand always goes as well as you see it, surrounded by Surienses, but to which already never it is possible to be won to him, she is to the Suriense head.

- SurienseB: That already we have seen it.

- Expensive: Then now, or one has become invincible, or that says, before all defeated to him, but now, there is not one that stop it, we will hope morning to recover to Gorsand, the only way to recover it, will be to kill all the Surienses that there is here, you remember, that you will not have killed all the Surienses, meteos inside of me to rest, the Surienses that there is here, right now cannot see you, they cannot see you because you are to my side, and I have I enchant.

- Mild said: Tenías a SurienseB dragoon?

- SurienseB: As it were not going to have it.

The dragoons put themselves to fight, and it already went clearing the way of Surienses, in the end, the dragoons were wounded and no longer they could fight more, the Surienses no longer attacked the dragoons.

And the dragoon of SurienseB recovered completely, the others did the same, no longer was left Surienses to which to attack, from the ceiling, left the Suriense head, and a bird of equal size.

They were joined to the face of the jar, and attacked the Suriense head when they approached next to the face.

- SurienseB said: We will make spells without it can see us.

- Mild: MILDCIEN!

- SurienseB: SURIENSECIEN!

The Suriense seemed to fall to the ground.

- Suriense head said: I will not suffer any damage!

The soul of the Suriense left towards outside, but nobody saw it, or can yes that. When they awoke all were in a magical clinical hospital.

- Mild said: Where I am, that has happened with my friends?

- The doctor said: These in a hospital, but I am afraid, that your Narso friend has died.

- Mild: Narso? , Who is that?

- Doctor: Ah! , that your you are the other patient, your friends are perfectly, you also. The Suriense that attacked to you follows small change that way, we have not been able it to take.

- Mild said: What friends are well?

- Doctor: Then your friends are well, you friends are: Nars, a Suriense, a face and Gorsand, no?

- Mild: Where is Gorsand?

- Doctor: Gorsand is far from here, Gorsand is in he himself site in which it was.

- Mild: In its place?

- Doctor: If, in its place.

All the others already were recovered and waiting for Gorsand, when Mild left, and saw all.

- Nars said: Now we will have to make he himself way, but as already we know what there is to do he will be to us sencillísimo to return.

- Mild: It does not pass anything, we will be all these days working without sleeping, will have to eat.

- Expensive: To me it is not necessary to rest, to you, I do not know, we will go now to by Gorsand.

All undertook the trip until Gorsand.

- Nars said: You hope, I I know many spells to travel to some site to which already we found gone before.

- SurienseB: Venga, transportanos towards Gorsand!

- Nars pronounced: NOMÉKAKE!

All were transported towards where it was the jar of broken Gorsand.

- Expensive: Meteos within me, I will transport to you until Gorsand.

All put in the face of the jar, took to them again until the place in which it was Gorsand.

- Gorsand said: Nars, Mild!

Surienses guards took to Nars, Mild and to the SurienseB. The SurienseB became and pronounced: MUERKA.

SurienseB was able to escape, and tried to attack the Surienses which they took to Gorsand, after several spells, obtained it, Gorsand thanked for it, Gorsand escaped with SurienseB.

- Nars said: Good work, we will see ourselves!

Nars listened what said, and a voice thread was heard to them, the Surienses guards said: If, we will see, that deluded.

- Mild said: You go away to Us of this stock market in all these days!

- Gorsand: I will go away to another one surrounded of this stock market!

The Surienses guards took to Nars, Mild, SurienseB and to the face, a place in which they were again with the Suriense head. Nars then was not for jokes, which was very strange.

- Nars pronounced: MUERKA!

- Suriense head said: You think yourself that no longer I am prepared, I prepared myself as soon as I saw the last time you, yesterday, a day stopped by somebody, no?

- Mild: How you know that?

- Suriense head: I have my own contacts.

- SurienseB pronounced: SURIENSEDOSMIL!

The Suriense head faint, but seemed to be dead, then appeared another Suriense head.

- Mild said: Is clones!

- Nars: I will go to by all the clones, quiet you quédate until we find to the original one

- Mild: But you will die!

- SurienseB: No, you are mistaken, will not die, the spells will share between us.

SurienseB and Nars joined the hands, both pronounced simultaneously: MUERKADIEZMIL!

The power shared between both, even so were desmayaron both to the same time, the clones of the Suriense head died, but they did not realize, of which it was left one, in a faint one.

- Mild said: Sand, Sanda, you come!

Sand and Sanda came quickly, were put to fight against the Suriense head, to the end nor defeated it, the dragoons were damaged, and no longer they could the more.

- Mild pronounced: MUERCADOS!

The spell was loose, but it was able to defeat to the Suriense that came to him by behind, a clone.

The Suriense head was already a little debilitated.

- Mild pronounced: KADAMABRA!

The Suriense head fell to the ground, before it returned to revivir, did the same spell to him repeated times, the Suriense head did not die, but the blow that beat when falling, was enormous.

- Mild said: Finally I get rid of everything.

A man with malignant face, came near to him to Mild.

- The man said: Hello, I will appear, am called Gorsan, I am the maximum person in charge of all the Surienses, my dream always has been to kill Gorsand, I have obtained it?

- Mild: No! , all that is lie!

- Gorsan said: No, it is not lie, this is real, had us to put he himself name, to my name cleared a letter to him.

- Mild: Venga! Your last names which are?

- Gorsan: Ancallo Mantaso.

- Mild: You are, but, How?

- Gorsan: If, I am the brother of Gorsand, by bad luck, we were born he himself day.

Mild left running this prison of Surienses, was visiting several sites, but it did not find to Gorsand.

Nars and SurienseB rose, first that saw, was a store in front of them, left running towards the store, luckily, was there where it was Mild, they were put to speak several hours.

- Mild said: Gorsand has a brother, apparently to be, was born he himself day, is called Gorsan.

- Nars: How you know it?

- Mild: I asked to him for its last names.

- SurienseB: And what?

- Mild: They were such.

- SurienseB: It can be that it knew the last names Gorsand, and nothing else.

- Mild: One does not say them to anybody.

- SurienseB: You as you know them?

- Mild: By a day which I went to its house, and they called to him by its last names.
 - SurienseB: We must kill Gorsan.
 - Mild: Where is Gorsand?
 - Nars: Gorsand had gone away to buscarte.
- While Mild, Nars and SurienseB there were distracted, Gorsand was in the prison of Gorsan.
- Mild: Gorsan or as it were called wanted to kill Gorsand.
 - Nars: It can be that that man has in his prison to Gorsand.
 - SurienseB: We must rescue to Gorsand, express.
 - Nars: We will be transported to its prison through something.
 - Expensive: You can go to its prison through me, I have much explicaros, Gorsan is the false name of malignant king Suriense, malignant king Suriense he is made happen through other people, he takes all its data, he tortures if it is necessary to people so that they say the identity to him of others, and I fear deciros, that king Suriense is almost impossible to win, whenever they have tried to him to win, have not obtained it, say that if you win to him he revives in his own soul, in another person.
 - Mild: Quieres to say that he is invincible?
 - Expensive: Not only that, has magical powers that help him to make the badness, their powers can get to be infinite, and in case he is not invincible, the powers went to them to a Suriense, the powers will be gone of Suriense in Suriense.
 - SurienseB: I that already knew it.
 - Mild: And so that you did not say it before?
 - Expensive: You did not listen to me.
 - Mild: It did not say to you to you, said to him to SurienseB.
 - SurienseB: That case has not appeared me until now.
 - Expensive: The Surienses makes an oath in which they say that they did not reveal confidential data to him.
 - SurienseB: It already is, I have not said I to it, has said the face to it of the jar.
 - Mild: We are witnesses, ah! , and a thing that it meant to you, as is a stopped day, is not possible to be sleepy.
 - Nars: Indeed!
 - Mild: We will have to call to our dragoons to go already prepared until the imposter of Gorsand.
 - Nars: Indeed!
 - SurienseB: You are not going to obtain nothing indeed saying each two by three.
 - Nars: We did not go away already?
 - Mild: Yes.
 - Nars: Then to it.

This time they were prepared to kill that bad person, the imposter of Gorsand was called: Kaban.

Kaban was a man ready to everything to obtain the maximum power.

ALMOST FINISHED SPELL BY DAY STOPPED:

The stopped spell was finishing by day, the spell would finish to the six days.

- Expensive: We would have to more often speak, I do not know if you will have found out that the spell to stop the day is finishing.

- Nars: If it were giving account me...

Mild did not let finish speaking to him to Nars.

- Mild: When will finish?

- Expensive: Approximately it finished to the five days.

- Mild: That already gives me equal, while we kill that man.

- Expensive: I will explain to you as these spells go, these spells go...

The face took much in explaining everything, Mild was listening to everything, Nars fell asleep while it explained, Nars snored much and Mild knew that if fell asleep, later it would not have time to listen the face, also, with the snores that towards Nars, were not one that slept.

- Nars said: That, uh, uh!

- Mild: The next time you take care of more.

- Nars: Sí.

- Mild: Nars! , you are listening to me?

- Expensive: It is listening to you neither you nor me.

Nars awoke, when awaking gave much shame him, the shame cannot be resisted.

- Nars said: Perdónenme!

- Expensive: You I will explain it again.

This time, Nars no longer fell asleep, the explanation was very long, but the dream took off to him in a moment, too rare thing.

- SurienseB said: We must have arrived until Gorsand for a long time.

- Expensive: We go slower so that all they can hear to me.

- Nars: When you finish the explanation already the five days will have gone.

- Expensive: And at the most you speak later we will arrive.

- Mild: You it continues explaining.

- Expensive: I already have left little.

- Nars: Me abuurro.

- Mild: Déjale to follow.

The face of the jar of Gorsand either was finishing explaining everything, they or were arriving, although it seemed that it was left much way, was not left anything almost, they were the more near which believed.

- Expensive it said: I have already finished of explicaros everything, if you have understood all this, you will overcome the imposter of Gorsand.

- Mild: It seems that already we are arriving.

- Nars: Expensive! , llévanos until Gorsand.

All with the face to the site in which it was Kaban, with the information were transported that had given the face them of the jar of Gorsand, discovered as the imposter were called, discovered that it was called: Kaban.

THEY LACK IV DAY: (So that the spell finishes).

- Nars said: Fast Vamos to by Gorsand, we will rescue it!
- Mild: We must hope, we will have to kill Kaban first.
- SurienseB: So that it does not return, and if it returns, to my it will give me equal while we rescue to Gorsand.
- Mild: Now we must form a great equipment, or he overcomes he to us, or we to him overcome!
- Nars: We will do It!
- SurienseB: We will be strong!
- Nars: While it is not Gorsand, vote so that you are the head of this band.
- SurienseB: I say the same.

They entered a cave stained with blood, she was very dark, there was plants of all classes, but they were not possible to be seen, to the nonbeing that you had a lantern, candelabrum, guards or something that it illuminated.

- Nars: We must be fast, the sooner we arrive better.
- Mild: That would have to say it I, but good.
- SurienseB: You are not going away to fight now in this situation.
- Nars: We will never leave here.
- Mild: Vamos, cállate!

There it had until abominable beings, but they went to their rate and nor they realized. The distant spot, a very dark door was seen, with a put key.

- Mild said: A door is seen very far.
- Nars: Where?
- SurienseB: There, where I indicate to you.
- Nars: There.
- SurienseB: If.
- Mild: Dejad speak!
- Nars: It has begun.
- SurienseB: That mentiroso!

They continued running by a way in which they did not fit the dragoons, the dragoons remained hoping.

- Nars said: You hope, has left me the shoe.
 - Mild: Parad all!
 - Nars: Gracias Mild.
 - Mild: No, it is not by you, it is that we are going away to hit the door.
- Nars recovered the time that was lost putting the shoe.
- SurienseB: We must go more express.
 - Mild: If that we must go more express, but we must make it the all best one to go more express.
 - Nars: We need much, no?
 - Mild: According to the computer of Gorsand... yes.

- SurienseB: How?
 - Mild: That we need much.
 - SurienseB: We were not close?
- Every time more to Kaban came near.

THEY LACK III DAY: (So that the spell finishes).

The spell still ran, that was good, but the risk also ran of which Kaban killed to them.

- Nars said: Mild When we will arrive?
- Mild: Approximately when the spell finishes.
- Expensive: I will explain to you what you must do while we go by the way: In order to win to the powerful Kaban, you will have to absorb the powers to him, are several forms, first is the basic one, the basic one it is formulated making a spell KABAN, a spell KABAN, is formulated of the following form, it moves the hands from above downwards, and repeats east movement several times, the following form will be easier to you if you have learned first, will be the average, the average is formulated making a spell KABAN next to a MUERKA, that is formulated shaking a hand towards both sides, and other above and down smoothly, one of the hands will have to go much more fast that the other, the other form is the expert, the expert form is formulated, turning the left hand for the right and the right hand for the left, this last one is called KABAN next to MUERKA next to GUIRO.

A single GUIRO is formulated turning arms for he himself side, a GUIRO that becomes single, could stun and make fly by airs to the rival in opening and closing of eyes.

- Mild said: To see if I have found out, a spell KABAN, is formulated of the following form, it moves the hands from above downwards, and repeats east movement several times, according to which you have said.
- Nars: Single I have remained with most difficult.
- Expensive: Then perfect.
- SurienseB: I have remained with all, and until so and as you have said it.
- Expensive: Very well.
- Nars: If I decide to me more spells I will do them.
- Expensive: Very well also.
- Mild: But one is not going away to decide.
- SurienseB: I do not put to you with him.
- Nars: If these spells are ridiculous, I do not need them don't mention it, would not serve to me as defense.
- Expensive: Ah! , your you want defense spells, the defense spells are easier, to formulate the spell more hard of defense, single you will have to cross the arms, this spell is called Hemur, if in addition to that you want to give back the spell to the opponent, single you will have to do the same, and when it returns to you the spell to move only the hands towards ahead.
- Nars: A good spell, no?
- Expensive: This spell practiced the prehistoric men.
- Mild: Because the prehistoric men?

- Expensive: If, they practiced it quite often.
 - SurienseB: That is lie!
 - Mild: Who that idea by the head has put you?
 - Expensive: Nobody, I to it know.
 - Mild: As if you had seen the prehistoric men practicing spells.
 - Expensive: You do not deny things to me that you do not know.
 - Mild: I have studied it!
 - Expensive: And I have seen it!
- The face of the jar said the truth, they were sleepy, was peculiar, whatever more days happened, more dream had.

THEY LACK II DAY: (So that the spell finishes).

- Nars said: Today we will kill Kaban!
 - Mild: And not only that, today we will recover to Gorsand!

 - Expensive: There what?
 - SurienseB: There it is the cave of Kaban, or that seems.
 - Mild: Face, transpórtanos until there.
 - Expensive: I will transport to you at a moment.
- The face of the jar of Gorsand took to them towards that cave, next to rocks that surrounded it, put: *Matarte will be a pleasure.*
- Mild said: It must be here, you do not see the threatening phrase?
 - Expensive: Yes, it is here.
- They entered the cave, the cave took to a world that was at heart of stock-market infinite, there was Kaban.
- Kaban said: Today it is a great day, I believe that the best day of my life, because we will kill my worse enemy, and the worse enemy of all the Surienses who you are present here, today we will kill to the worse one of all, you, you do the honors.
- Kaban called to a Suriense so that it killed Gorsand, in opening and closing of eyes, Sand, Sanda and the dragoon of SurienseB APPEARED.
- Nars said: Since the entrance has left us, eh?
 - SurienseB: After as much practice, as it would not come out to us well.
 - Mild: What entrance?
- The truth was that they had not practiced, nor nothing, was single chuleando itself, Mild, did not find out don't mention it.
- Mild said: Callados, you watch those Surienses that they persecute to us! A Surienses persecuted to them, Kaban ordered to some Surienses, which they persecuted to Nars, to others ordered to them that they went to by Mild.
- A Suriense asked: Atacamos that Suriense?
 - Kaban: No, that dejadlo for me.
- Kaban always tortured to the Surienses that did not accept their orders, Kaban began to torture to Gorsand and SurienseB.
- Gorsand pronounced: HEMUR!
 - SurienseB: How you know that spell?
 - Gorsand: Here it is learned of everything.
 - Kaban pronounced: ROMPECIO.
 - Expensive: Noooo!
 - Kaban: Yes, there am broken the spell, your spell that of the days that did not benefit you to you.

- Expensive. I have not said to you that you break it!

- Kaban: For that reason same, I have done it.
The truth battle began now , in which all were put.

- Nars pronounced: CABANMUERCAGUIRO!
Almost all the Surienses that was there died.

- Mild pronounced: GUIROOCHOMIL!
The Surienses that was also died.

- SurienseB said: Salvadnos already, I cannot here make spells, are threatening to me.

- Mild: MUERKAOCHOMIL!
Kaban was only debilitated little, but Mild was debilitated absolutely, Mild faint, the dragoons were waiting for the moment to attack Kaban.

- Nars pronounced: MURZKA!
The power of Kaban controlled Nars, the dragoons attacked to him simultaneously Kaban, but it did not serve as anything, Nars mounted in the three dragoons, the dragoons were throwing fire.

- Nars ordered: Pégate in the face.
Kaban stuck in the face.

- Nars said: Pégate puñetazo in the belly.
Kaban stuck puñetazo in the belly.

- Kaban pronounced: MUERKA!
Nars suffered the damages, already was gotten upset.

- Nars said: Arráncate an eye.
Kaban took an eye.

- Kaban said: Basta!

- Nars: That we could hacerte now, Which is your favorite part of your body?

- Kaban: Please, no longer more.

- Nars: Loose to all the prisoners.
Kaban began to loosen to all the prisoners.

- Kaban: It is enough please, already.

- Nars said: Matate.
Kaban was taken of the neck and it was killed with the spell MUERKA, all recovered.

- Mild said: It has been to record it Nars.

- Nars: I have recorded the audio one, you do not worry.

- SurienseB: Gracias Nars.

- Mild: I suppose, that no longer I am the head of the band.

- Gorsand: Mild, I name head you as of today.

- Mild: Thanks, many thanks!
All were well, but Kaban was no dead, Nars had saved to all with its great spell, but still there was something, something of which they had not

realized, something very special, that all, had become immortals, to the following day, celebrated the happened thing, an infinite history.
